## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13, drawn to an assembly for use in a fluid handling system.

Group II, claim(s) 14-18, drawn to a screening workstation.

Group III, claim(s) 19-36, drawn to a screening workstation.

Group IV, claim(s) 37, drawn to a workstation for use in preparing liquid suspensions.

Group V, claim(s) 38-64, drawn to a process for preparing crystalline forms of drugs.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the only common technical feature shared by inventions of Groups I-III and V is a bypass line interposed between two valves, which is a conventional feature for liquid-transferring systems, see e.g. Brown, US 2,670,889; Groups I-III and V do not have any common technical feature with Group IV. Therefore, Groups I-V lack a special common technical feature and the restrictions are proper.

A telephone call was made to Christopher Rogers on 05/17-26/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
